Ms. Alison Thompson Commonwealth of Virginia Department of Environmental Quality Northern Virginia Regional Office 13901 Crown Court Woodbridge, VA 22193-1453

Reference: Response to the question regarding Part D of VPDES Permit VA0022802 Renewal

for the Basham Simms Wastewater Facility

Dear Ms Alison Thompson:

This letter is in response to your letter issued to the Town of Purcellville regarding the absence of Extended Effluent Testing reports per Part-D of EPA Form 3510-2A. The Town of Purcellville has now completed the testing. A completed copy of Part-D, and copies of the three set of plant effluent testing results are enclosed for your review.

Please contact me at (540) 751-2313 or <u>AVANEGAS@purcellvilleva.gov</u>, if you have any question about this letter or the testing results. Alternatively you can also contact Ed Fleischer with CH2M HILL at (703) 376-5107 or Ed.Fleischer@CH2M.com.

Sincerely.

Alex Vanegas

Assistant Director Public Works

C/C: Ed Fleischer, CH2M HILL

SUPPLEMENTAL APPLICATION INFORMATION

PART D. EXPANDED EFFLUENT TESTING DATA

Refer to the directions on the cover page to determine whether this section applies to the treatment works.

Effluent Testing: 1.0 mgd and Pretreatment Treatment Works. If the treatment works has a design flow greater than or equal to 1.0 mgd or it has (or is required to have) a pretreatment program, or is otherwise required by the permitting authority to provide the data, then provide effluent testing data for the following pollutants. Provide the indicated effluent testing information and any other information required by the permitting authority for each outfall through which effluent is discharged. Do not include information on combined sewer overflows in this section. All information reported must be based on data collected through analyses conducted using 40 CFR Part 136 methods. In addition, these data must comply with QA/QC requirements of 40 CFR Part 136 and other appropriate QA/QC requirements for standard methods for analytes not addressed by 40 CFR Part 136. Indicate in the blank rows provided below any data you may have on pollutants not specifically listed in this form. At a minimum, effluent testing data must be based on at least three pollutant scans and must be no more than four and one-half years old.
